Attractive, lightweight, durable tables made from high-density polyethylene plastic, designed to hold up to heavy-use, even in the most extreme conditions. These tables are easy-to-clean, easy-to-use, and easy-to-store, due to the innovative design of the folding legs. The 1.125" steel tubular legs fold securely into the molded tops, allowing the tables to stack flat and reducing the threat of shifting during vertical or horizontal storage.

The tables are also weather-resistant with UV inhibitors to prevent fading and sun damage. Black powder coating gives the steel frames a scratch-resistant, all-weather finish that won't crack, chip or peel.

The 30"x72" table only can be ordered in a fold-in-half version which features a latch and carrying handle to allow for convenient transport.
